Examination reforms (upload Provide weblink)

At the start of the session academic calendar is given to the students which includes the time table for the internal assessments as well , also the information regarding the evaluation process is made aware to the students . The results after CIA is evaluated by the tutor and the pass percentage is calculated . The performance of the students in each examination and each subject is monitored by the exam cell of the college and the principal and feedback is sent to concerned faculty members. Then the meeting is organized for the reforms.

Extra classes

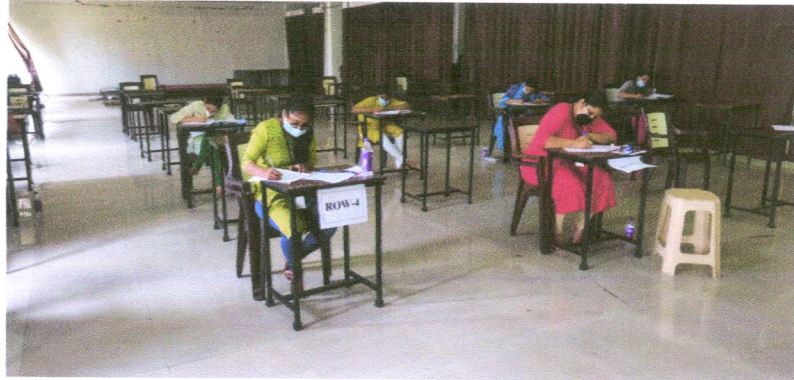

Extra classes are also conducted for students who are slow learners, absentees because of medical background, sports, NSS activities etc, this will improve their performance in examination.

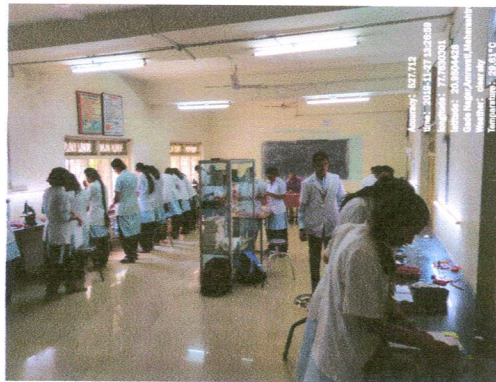

CIA

Each CIA will be conducted as per university criteria of 3 hrs, so that the students will get a practice of writing university or external examination.

- Periodic theory exam

- Periodic practical exam

- Periodic clinical examination

Regarding reevaluation

Also the students are informed about the reappearing, reevaluation and reassessment of the examination papers.

**Parents Teacher Meeting**

Also informing the progress report of the students to their parents will also improve the academic performance of their ward, this will improve the monitoring of the parents.
