

Annually we celebrate Women's day to sensitize everyone regarding Women's rights and appreciate work by women's on 08 March every year at Auditorium, V.Y.W.S. Dental College

Male female ratio of Maharashtra for the year 2023 was 1080:1000 but that of our Amravati district of Maharashtra is 1000:951. From this, we conclude that different programmes conducted for gender equity like "**Beti Bacchao Beti Padhao**" rally, Women's conferences, Women's Redressal Committee helps to improve the sex ratio.

We celebrate Women's Day by rendering free consultation and dental treatment for the female patients. Additionally we call for some guest speakers to grace the occasion and to spread awareness amongst the female staff of an institute.

Day care room:-

Feeding room for lactating mother and Day care centre are available in our campus along with the girl's common room for girl's students.

Women's Complaint committee-

We have women's complaint committee in our college headed by Dr. R. R. Gondhalekar. The committee conducts meeting quarterly every year under the guidance of respected dean sir and committee chairman where various issues and measures to be taken for the improvement of services provided are discussed unanimously. As far now no complaint regarding any women inequality has been reported in our college which is suggestive of a healthy environment for everyone.
