Title –Preceptorship program Objectives of the practice-

- It is found that the scholars in dental college are very busy in their research and curricular activity in college.
- During their tenure with inside the VYWS DCH institute, they stumble upon many troubles and problems.
- Many college students are far from their local vicinity, they want space where they
 can share their feeling, troubles and discover their solutions, on occasion additionally
 they want ethical and mental support.
- Looking into those problems of college students we run preceptorship program in our university.
- Senior staff will act as preceptors for 10 college students until they are part of the
 institute. The college students of repeater batch can be individually monitored through
 the Head of the departments (HODs) of respective years.

The Practice-

Scheduled conferences are performed among students (preceptee) and their allocated preceptors as soon as in a week. The problems, if any are mentioned among them. If problem is pressing preceptor can at once carry to the better authorities, in any other case problems are mentioned among preceptors in a assembly scheduled as soon as in a month and conveyed to the convener or co-convener of the preceptorship application who then mention them inside the institute council assembly scheduled monthly. The programme might be reviewed with the aid of using dean of our institute.

The preceptee can convey any of their troubles or problems, can connect with their preceptors even telephonically any time. Issues like food, hostel, studies, take a look at materials, conveyance may be addressed, even private problems to a point may be addressed. We attempt our stage first-rate to resolve their problems at earliest.

Evidence of Success-

- Separate list of Preceptor (Staff) for that year and preceptee (10 15 students) is attached.
- Booklet of preceptor ship is also uploaded.
