e-journals :

The enormous development in Information & Communication Technologies (ICT) have changed the world information scenario. It has brought drastic changes in the way of information is generated, stored, organized, accessed, retrieved and consumed. In present time most of the information sources are available in electronic form. E-journals means those journals which are available on-line on the internet. They are accessible to only paid subscriber and some e-journals are freely accessible on the internet as open access. They are providing multimedia, environment to combine the hyper text with graphs, audio and visual materials. E-journals are available in various formats such as HTML, PDF, DOC, etc.

We are subscribing EBSCO online database from the year 2011 to our library. This database consists of near about 360 full text journals and various e-books. The detail of the subscription paid is enclosed herewith. For this year DVL online data base is subscribed. The details of this database is also enclosed herewith.

Some of the leading coverage of this database are mentioned below.

Information showing EBSCO online Database

2

- Oral and Maxillofacial Surgery
- Orthodontics and Dentofacial Orthopaedics
- Pediatric Dentistry
- Periodontics
- Prosthodontics

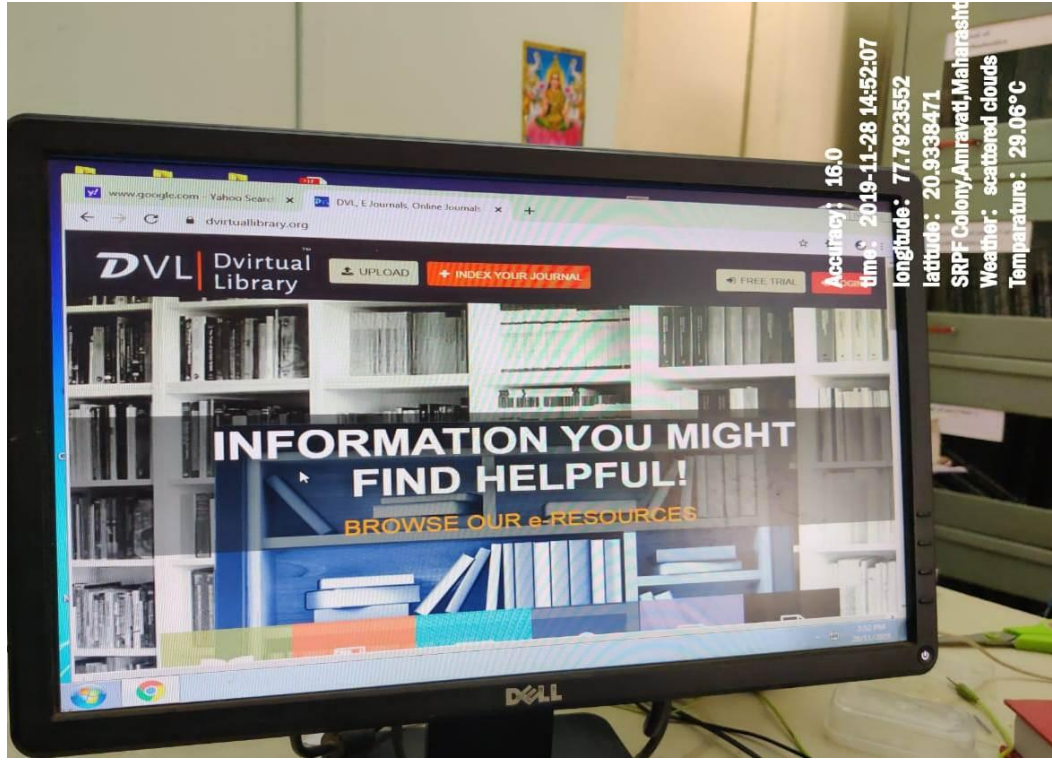

We have done extensive study of the dentistry journals using Eigenfactor as well as ISI impact factor. Out of 25 top ranking journals EBSCO Publishing has been able to license 17 of them and efforts are going on to license more.

Eigenfactor Dental Journal Rankings

- Critical Reviews of Oral Biology & Medicine
- Journal of Dental Research
- Journal of Adhesive Dentistry
- Periodontology 2000
- Clinical Oral Implants Research
- International Journal of Oral & Maxillofacial Implants
- International Journal of Prosthodontics

- European Journal of Oral Sciences
- Journal of Clinical Periodontology
- Community Dentistry and Oral Epidemiology
- Journal of Orofacial Pain
- Caries Research
- Oral Microbiology and Immunology
- Oral Diseases
- International Journal of Periodontics & Restorative Dentistry

In addition to containing many leading national (U.S.) industry periodicals, Dentistry & Oral Sciences Source also includes strong international coverage, as well as a growing collection of state/province-specific dentistry journals. Unique full-text book and monograph titles are additional highlights of this database.

Globally, Dentistry & Oral Sciences Source is often accessed through EBSCOhost, our Internet based service, where the data is updated on a daily basis. Internet access ensures that your patrons have the most current information available. Internet access is 24 hours a day, 7 days a week for 365 days a year. **There are no concurrent user limitations.** You will be able to provide as much access as you want or need. **There is no additional charge for unlimited access.** The only restriction being that access be provided from within the campus and to employees of your organization only.

4.3.5 In person and remote access usage of library and the learner sessions / library usage programmes organized for the teachers and students (data for the preceding academic year)

Q₁M Describe in-person and remote access usage of library and the learner sessions/ library usage programmes organized for the teachers and students data for the preceding academic year within 500 words.

Answer : This library is enriched with **4810** books out of which 1145 are reference books. We are subscribing **50** journals for this year. Out of which **27 are international** journals and **23 are national** journals. We are subscribing **e-journals data bases** (EBSCO Online Databases, DVL Online Databases) every year. In this library there are back volume of journals from last 20 years. All this materials are available for reading purpose and home issue for students and staff members of the college.

Library usage by students :

There are 3 categories of students studying in this college.

First Category : B.D.S. –I Year to IV year students (UG Students)

These students use mainly text book, syllabus, questions paper for their study purpose. These students use reference books, journals and e-resources whenever required.

Second Category : Intern Students

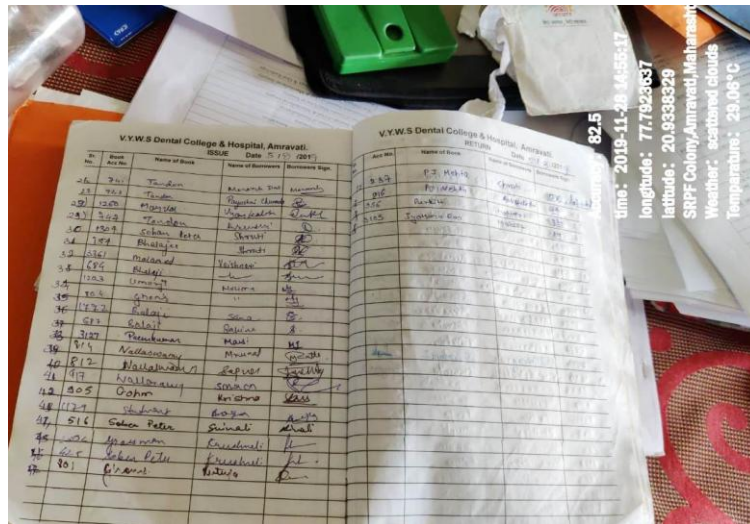

These students mainly use library for patient treatment and books for PG entrance exam.

Third Category : M.D.S. Students

These students use library extensively. They mainly read reference books, current international and national journals, back volume of journals, e-resources like EBSCO host online databases, DVL online library databases, e-contents.

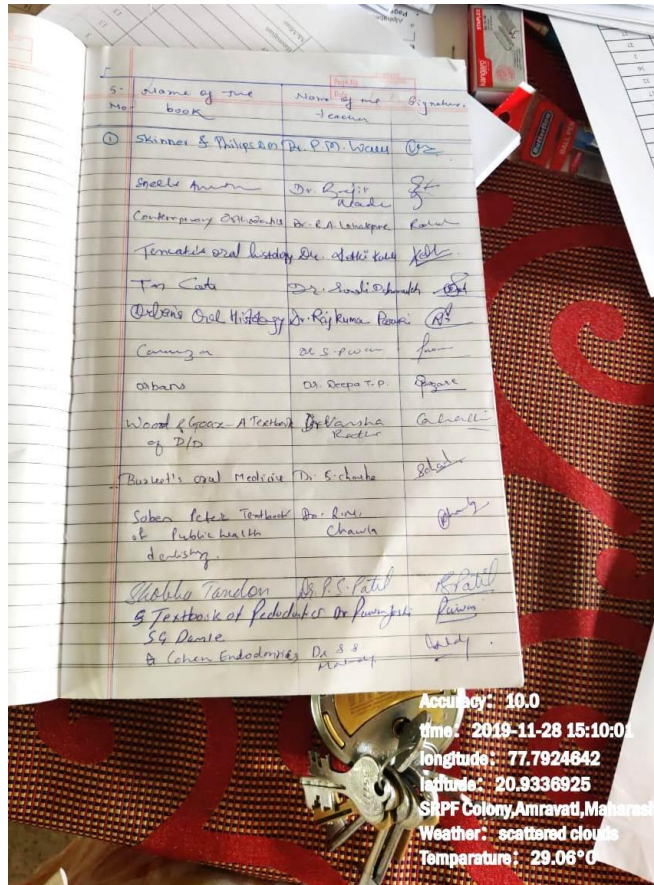

All the students have use reading hall available in the college library in working hours of college and post college hours.

Usage of Library by Students :

Usage of Library by Teachers :

This college runs both B.D.S.,M.D.S. and Ph.D. scholar courses. So faculty members in this college are related to medical and dental subjects. These teachers require information from library to cater their needs for patient treatment, study, research purpose. All this information is available in library in books, reference books journals, e-contents and e-database. These staff member use information from all available information sources in library.

Details of learner session :

We have subscribed EBSCO host database from 2011 in this library. This EBSCO host database company has depute every year representative to this college for learner programme.

The representative explain how to get access effectively this database and what are the benefits of using material available in that database. They also provide password to students mainly PG students and PG guide for remote access use of library.

Answer :

E-content :

Electronic contents, digital content that can be transmitted over a computer network such as internet.

Need of e-content development in education :

Information technology and internet are major drivers of research, innovation and growth for social change. The growth in internet has brought changes in all walks of life including education. E-contents requires huge amount of creativity both at information level as well as technology level.

Eg. Shodhganga e-content.

NPTEL :

NPTEL provides e-learning through online web and video courses in engineering sciences and humanities stream. The mission NPTEL is to enhance the quality engineering education in country providing free online courses.

This college provides education in the field of medical education mainly dental science. So teachers in this institution use e-contents related to their medical and dental subjects. Following are the e-contents use by teachers in this college. 1) Google Scholar, 2) Pubmed, 3) Research Gate, 4) Scopus, 5) Webscience.
